Item 4 – Financial Planning and Advisory Business

Overview

Quabbin Advisors, LLC (“Quabbin Advisors” or “the company”) provides financial planning and investment advisory services on a fee-only basis to individuals, families, non-profit organizations, and businesses. Megan Donnelly is the 100% owner and sole principal of Quabbin Advisors, LLC.

As of December 31, 2019, Quabbin Advisors actively advised on approximately \$30,214,786 on a non-discretionary basis. Of that amount, approximately \$12,200,308 was in accounts for which I had the ability to place trades for clients and \$18,014,478 was in accounts that I did not have the ability to place trades.

The specific services offered depend upon each client’s unique circumstances and may include some or all of the following services: Investment strategy and recommendations, investment portfolio reviews, retirement planning, education savings plans, estate planning, debt management, risk management, and cash flow analysis and budgeting, and insurance reviews.

As a Registered Investment Advisor Quabbin Advisors must hold itself to a fiduciary standard. This means that we must act in what we believe are the best interests of the client.

Quabbin Advisors participates in the institutional program offered by TD Ameritrade Institutional (the “Program”). TD Ameritrade Institutional is a division of TD Ameritrade Inc., member FINRA/SIPC (“TD Ameritrade”), an unaffiliated SEC-registered broker-dealer and FINRA member. TD Ameritrade offers independent investment firms services which include custody of securities, trade execution, clearance, and settlement of transactions. Quabbin Advisors receives some benefits from TD Ameritrade through its participation in the program. These benefits include discounts on third party software and services used by Quabbin Advisors to service client needs. Clients are not required to have their accounts at TD Ameritrade.

The Financial Planning Process and Services

Financial Planning

We provide financial planning services on topics such as retirement planning, investment strategies, risk management and insurance, college savings, cash flow, debt management, work benefits, estate planning, and tax strategies.

Financial planning is a comprehensive evaluation of a client's current and possible future financial state by using currently known variables to predict future cash flows, asset values and withdrawal plans. Clients purchasing this service will receive a written and/or an electronic report, providing the client with a detailed financial plan designed to achieve his or her stated financial goals and objectives.

Common financial planning engagements include one or more of the following:

- **Financial Goals:** We will help clients identify financial goals and develop a plan to reach them. We will identify what you plan to accomplish, what resources you will need to make it happen, how much time you will need to reach the goal, and how much you should budget for your goal (examples: save for a home, launch a business, etc.)
- **Retirement Planning:** Our retirement planning services typically include projections of your likelihood of achieving your financial goals and recommendations on how to potentially increase your odds for meeting your financial goals in retirement. If you are near retirement or already retired, advice may be given on appropriate distribution strategies to minimize the likelihood of running out of money or having to adversely alter spending during your retirement years.
- **Investment Analysis:** This may involve developing an asset allocation strategy to meet clients' financial goals and risk tolerance, providing information on investment vehicles and strategies (as well as specific investments), reviewing employee stock options or other benefits (as applicable). If desired, we may also assist you in establishing your own investment account(s) at the broker/dealer or custodian of your choice. The strategies and types of investments we may recommend are further discussed in Item 8 of this brochure.

- **Cash Flow and Debt Management:** We will conduct a review of your income and expenses to determine your current cash flow status and will provide advice on how to use cash surpluses to meet your financial goals - and how to reduce expenses if they exceed your income.
- **Insurance:** Review of existing policies to ensure proper coverage for relevant insurance policies, (e.g.: life, health, disability, long-term care, liability, home and automobile).
- **College Savings:** Includes projecting the amount that may be needed to achieve college or other post-secondary education funding goals, along with advice on ways for you to save the desired amount.
- **Tax Planning Strategies:** Advice may include ways to minimize current and future income taxes as a part of your overall financial planning picture. For example, we may make recommendations on which type of account(s) or specific investments should be owned based in part on their “tax efficiency.”

We recommend that you consult with a qualified tax professional before initiating any tax planning strategy.

- **Employee Benefits Optimization:** We will provide review and analysis as to whether you, as an employee, are taking the maximum advantage possible of your employee benefits.
- **Estate Planning:** This usually includes an analysis of your exposure to estate taxes and your current estate plan, which may include whether you have a will, powers of attorney, trusts and other related documents. The advice is high-level, strategic advice, and we encourage you to consult with a qualified estate planning attorney for specific advice and to execute appropriate documents.

COMMON ENGAGEMENTS AND SPECIFIC SERVICE OFFERINGS:

Initial Financial Plan

Most clients begin working with Quabbin Advisors by completing an initial financial plan that includes one or more of the categories outlined above. During the planning process, we discuss the client’s goals and gather their relevant financial information. We then analyze the data to develop and present recommendations that we believe will help our client’s reach their stated financial goals.

This analysis, along with written observations and recommendations are presented as a financial plan to the client. These recommendations and observations are tailored to the individual client's circumstances and risk profile.

Clients are generally responsible for implementing any recommendations but may engage with us to assist them.

Clients may opt for a comprehensive financial plan or one that is limited in scope. If a client requests that we focus our financial planning and investment consultation services only on certain areas, they must understand that their overall financial situation or needs may not be fully addressed due to the limitations they have established.

Once the financial plan has been presented to the client, the engagement with Quabbin Advisors is complete. Clients may re-engage Quabbin Advisors as needed, and periodic financial check-ups are recommended. It is the client's responsibility to initiate reviews and check-ups.

Quabbin Advisors does not provide legal or accounting advice. With the client's permission, we may work together with their other advisers, such as accountants or attorneys, to coordinate and implement the strategies we have agreed on. Clients should be aware that these other professional advisers will bill them separately for their services, and these fees will be in addition to those charged by Quabbin Advisors.

Ongoing Financial Planning

This service involves working one-on-one with a planner over an extended period of time. By paying a monthly or quarterly fee, clients get continuous access to a planner who will work with them to design, monitor and possibly assist implementing their plan.

This service generally begins upon completion of the first financial planning engagement and is an option for those clients who want additional assistance. Each engagement will vary, but all engagements include an annual review of their financial plan.

Ongoing financial planning guidance is not meant for those clients who want ongoing monitoring of their investment portfolio or who have more complex investment situations. The Portfolio Review service (described below) provides that service. Ongoing financial planning provides limited review of investments (generally at the annual review).

Quabbin Advisors does not provide legal or accounting advice. With the client's permission, we may work together with their other advisers, such as accountants or attorneys, to coordinate and implement the strategies we have agreed on. Clients should be aware that these other professional advisers will bill them separately for their services, and these fees will be in addition to those charged by Quabbin Advisors.

Portfolio Review Services (Investment Advisory)

Portfolio review services are typically offered only to those clients who have already completed some type of financial planning engagement with Quabbin Advisors that includes an assessment of a client's current financial situation, risk tolerance, investment goals and horizon, and specific investment constraints or restrictions.

Clients may contract with Quabbin Advisors to monitor and review their investment portfolio on a quarterly basis.

Quabbin Advisors provides advice to clients regarding investments that are based on their individual needs. Through discussions in which goals and objectives based on a client's circumstances are established, we develop a client's investment policy or investment plan with an asset allocation target. We recommend a portfolio based on that policy and allocation target. During our data-gathering process, we determine the client's individual objectives, time horizons, risk tolerance, and liquidity needs. We may also review and discuss a client's prior investment history, as well as family composition and background.

Quarterly portfolio reviews will be done to assess the performance of the client's portfolio and to determine if any investment changes or asset allocation re-balancing is recommended, based on performance, changes in client preferences or circumstances.

Portfolio Review clients are not required to hold their accounts at TD Ameritrade. If accounts are not held at TD Ameritrade, the client is responsible for acting on recommendations and placing trades themselves.

If a client does hold accounts at TD Ameritrade, then they may either place the trades themselves, or they can have Quabbin Advisors place the recommended trades for them after they provide written confirmation that they approve of the written recommendations provided by Quabbin Advisors. Quabbin Advisors will not place discretionary trades.

Clients may impose reasonable restrictions on investing in certain securities, types of securities, or industry sectors. Fees pertaining to this service are outlined in Item 5 of this brochure.

Clients who utilize the Portfolio Review service also have the option of receiving an annual review of their financial plan and may be provided with additional financial advice pertaining to their plan or related subjects throughout the year, as requested.

Quabbin Advisors does not have custody or discretionary authority of any client assets. We do not offer any wrap fee accounts.

Quabbin Advisors does not provide legal or accounting advice. With the client's permission, we may work together with their other advisers, such as accountants or attorneys, to coordinate and implement the strategies we have agreed on. Clients should be aware that these other professional advisers will bill them separately for their services, and these fees will be in addition to those charged by Quabbin Advisors.

Item 5 – Fees and Compensation

Quabbin Advisors receives compensation solely by the fees clients pay.

The fees for *financial planning services* are either paid hourly or on a project basis and are based on a rate of \$175 per hour, billed in 10-minute increments. Fees that are project-based are flat fees that are based on our hourly rate multiplied by the approximate number of hours that are anticipated to be needed to provide the requested service. Fees for Portfolio Review (investment advisory) are based on the dollar amount of investments. Our fees are negotiable.

Financial Planning Fees

While fees are based on individual client circumstances and can range widely, depending upon the complexity and scope of an assignment, here are estimated ranges for two common services: many comprehensive financial plans are estimated to cost between \$1200 and \$3000. Modular plans (not as extensive as comprehensive plans) and initial investment portfolio reviews are likely to range from \$450 to \$1500 for most clients.

For each engagement, requested services and an estimated fee range are disclosed in the written Client Service Agreement. For financial planning clients, we generally require an immediate deposit in an amount that is the lesser of one-half of the total estimated fee or \$500. The deposit is due upon signing of the Client Service Agreement, or as negotiated. The balance of the fee is due upon presentation of the requested advice or plan.

Ongoing Financial Planning Services

The fee for this service will be negotiated individually with each client based upon their specific needs and situation. The minimum charge will be \$500 annually and will be billed quarterly or monthly, in arrears.

Fees for Portfolio Review Services

Our standard advisory fee is based on the market value of the client's total investment portfolio. The annual fee for this service is 0.15% of investable assets (minimum fee of \$750) if clients hold accounts at a custodian I work with. Otherwise, the fee is 0.25% of investable assets with a minimum fee of \$1,250. The fee is based on the portfolio value at the end of the preceding year. For new clients, the pro-rated fee for the balance of the year will be based on the portfolio value for the most recent quarter, or on another agreed-upon date. The annual fees are negotiable and are pro-rated and paid in arrears on a quarterly basis.

No increase in the annual fee shall be effective without agreement from the client by signing a new agreement or amendment to their current advisory agreement.

Advisory fees may be directly debited from client accounts, or the client may choose to pay either check, credit card, or debit card. Accounts initiated or terminated during a calendar quarter will be charged a pro-rated fee based on the amount of time remaining in the billing period. An account may be terminated with written notice at least 15 calendar days in advance. Since fees are paid in arrears, no rebate will be needed upon termination of the account.

Termination

Either party may terminate the Agreement at any time by providing written notice of termination to the other party. If a client verbally notifies Quabbin Advisors of their desire to terminate the agreement, and if they have not provided written termination notice within two (2) business days, we will document the termination request in our records and provide the client with a written termination notice. Once a termination notice is submitted, we will no longer be responsible for monitoring the client's account or for providing further advice or recommendations.

A new client may terminate an Agreement with us, without penalty or charge, within five (5) business days of signing the Client Services Agreement. If termination occurs within this time frame, the client's deposit is returned, and the engagement is voided. If the client terminates the Agreement after the five-day period, we will return any unearned prepaid fees no later than thirty (30) days after we receive notice of termination.

Clients will receive a copy of Quabbin Advisors' Form ADV Part 2 prior to, or upon execution of a Service Agreement. If we fail to provide the Form ADV Part 2 within this timeframe, the client may terminate the Agreement within five (5) business days without penalty.

Important Note about Fees

Clients should be aware that, in implementing advice or plans that we provide, they may incur additional, separate fees charged for trading or for investing in securities, mutual funds, and/or exchange traded funds (ETFs). In addition, clients may incur additional

maintenance, monitoring, custodial, or other administrative fees from brokerage firms or other providers.

We strongly recommend that clients obtain complete fee schedules from all of their financial providers, including brokerage firms, for account and maintenance fees. We also encourage clients to request investment prospectuses for all investments and to review these prospectuses for a complete explanation of fees. It is important that clients understand these additional fees as they reduce the overall investment return to the client.

Quabbin Advisors does not receive commissions, referral fees, or any third-party payments of any kind. The only compensation we receive is paid directly to us by our clients.

Item 6 – Performance-Based Fees and Side-By-Side Management

Quabbin Advisors does not charge any performance-based fees (fees based on a share of capital gains on or capital appreciation of the assets of a client).

Item 7 – Types of Clients

Quabbin Advisors conducts business primarily with individuals, families, businesses, trusts, and estates of various size and complexity. We do not have any minimum requirements with respect to assets, net worth, income, or revenue generated as a condition for engaging our services.

Item 8 – Methods of Analysis, Investment Strategies and Risk of Loss

Investing in securities involves risk of loss that clients should be prepared to bear. If an engagement involves investment strategies or investment analyses, we explain the risk of loss to clients. We do not guarantee specific investment results.

If we are engaged to provide investment advice, we first evaluate the client's current financial situation, risk tolerance, needs, investing goals, and investing timeframe before providing specific recommendations or guidance. Our recommendations reflect Quabbin Advisors' best judgment as to how a client might achieve their investing goals while also minimizing risk and taking into account the client's investment objectives, financial situation and needs, and any other pertinent information.

We believe that asset allocation is a critical component in devising a risk-appropriate investment portfolio. Quabbin Advisors employs fundamental, long-term, buy-and-hold strategies for investment selection. Recommendations provided are based on one or more of the following: analysis of individual securities or funds, computerized asset allocation

models, publicly available reports, Securities and Exchange Commission filings, and information from subscription services, magazines, and websites.

For most individuals, Quabbin Advisors recommends that client's investment assets be allocated primarily among various no-load and low-fee mutual funds, index funds, and exchange traded funds (ETFs), in accordance with the client's stated investment objectives. Some clients may also wish to invest in individual stocks or bonds, and we will incorporate those wishes in our recommendations.

While we believe that our investment strategy is designed to potentially produce the highest possible return for a given level of risk, we cannot guarantee that an investment objective or goal will be achieved. Some investment recommendations may result in loss, and this loss may include the loss of the original principal amount invested. The client must be able to bear the various risks involved in investing. These include: market risk, interest rate risk, liquidity risk, currency risk, and political risk, among others.

We recommend that clients review their investment portfolios frequently and that they rebalance their portfolios at least annually or when their life circumstances change.

Item 9 – Disciplinary Information

Neither Quabbin Advisors nor any of its personnel have been involved in any legal or disciplinary action related to past or present clients.

Item 10 – Other Financial Industry Activities and Affiliations

Quabbin Advisors is an independent, fee-only financial firm. We have no affiliation with any brokerage or investment firm. We receive no commissions or referral fees from any third parties.

Our policies require us to avoid actual or potential conflicts of interest with our clients. Prior to and during engagements, we disclose actual and potential conflicts that may arise or that we feel may reasonably compromise our independence.

Megan Donnelly is licensed as a life insurance advisor in Massachusetts in order to consult with clients on purchasing life insurance or annuities. Quabbin Advisors does not sell insurance and does not receive any commissions or fees from any insurance company. The licenses allow us to provide advice that is paid for by clients.

Item 11 – Code of Ethics

Clients and prospective clients will receive a copy of our Code of Ethics upon request or, if no prior request has been made, a copy will be provided in conjunction with our Client Service Agreement.

Quabbin Advisors adheres to the Code of Ethics required of CFP® professionals and of those holding the Chartered Financial Consultant® (ChFC®) designation. In short, CFP® professionals and those holding the Chartered Financial Consultant® designation are required to uphold the fiduciary standard and to do the same for clients as they would for themselves, assuming similar circumstances. We strive to conduct all of our business in an honest, ethical, and fair manner.

The interests of Quabbin Advisors' clients come first. When providing services, we seek to avoid actual or potential conflicts of interest, and we disclose actual or potential conflicts of interest to our clients. We base our recommendations on the information provided to us by clients and seek to find suitable investments that meet our clients' stated investment and financial goals, risk tolerance, and investment horizon.

We do not recommend to clients, securities in which we, or related persons, have a material financial interest.

We frequently recommend investments that we are also invested in if those investments are appropriate for the clients. These are publicly traded investments.

If we recommend any security that we are then actively buying or selling, we disclose this. Because we invest in highly liquid, broadly traded securities, it is highly unlikely that our trading activity would ever adversely impact a client's investment.

Item 12 – Brokerage Practices

Factors Used to Select Custodians and/or Broker-Dealers

Clients select their own custodians and are not required to use any certain custodian. As disclosed above, Quabbin Advisors participates in TD Ameritrade’s institutional customer program and may recommend TD Ameritrade to clients for custody and brokerage services.

There is no direct link between Quabbin Advisors participation in the program and the investment advice it gives to its clients, although Quabbin Advisors receives economic benefits through its participation in the program that are typically not available to TD Ameritrade retail investors.

These benefits include the following products and services (provided without cost or at a discount): receipt of duplicate client statements and confirmations, research related products and tools, consulting services, access to a trading desk serving Quabbin Advisors participants, the ability to have advisory fees deducted directly from client accounts, access to mutual funds with no transaction fees and to certain institutional money managers, and discounts on compliance, marketing, research, technology, and practice management products or services provided to Quabbin Advisors by third party vendors.

Some of the products and services made available by TD Ameritrade through the program may benefit Quabbin Advisors but may not benefit its client accounts. These products or services may assist Quabbin Advisors in managing and administering client accounts, including accounts not maintained at TD Ameritrade. Other services made available by TD Ameritrade are intended to help Quabbin Advisors manage and further develop its business enterprise.

The benefits received by Quabbin Advisors or its personnel through its participation in the program do not depend on the amount of brokerage transactions directed to TD Ameritrade. As part of its fiduciary duties to clients, Quabbin Advisors endeavors at all times to put the interests of its clients first. Clients should be aware, however, that the receipt of economic benefits by Quabbin Advisors or its related persons, in and of itself creates a potential conflict of interest and may indirectly influence Quabbin Advisors choice of TD Ameritrade for custody and brokerage services.

Research and Other Soft-Dollar Benefits

Quabbin Advisors does not receive “soft dollar” benefits (research or other products or services) from any broker-dealer in connection with client securities transactions.

Brokerage for Client Referrals

We receive no referrals from a broker-dealer or third party in exchange for using that broker-dealer or third party.

Clients Directing Which Broker-Dealer or Custodian to Use

We do not engage in directed brokerage. For clients that use our Portfolio Review service, we do recommend a specific custodian for clients to use, however, clients may have their accounts wherever they choose but may need to place their own trades. By allowing clients to choose a specific custodian, we may be unable to achieve most favorable execution of client transaction and this may cost clients money over using a lower-cost custodian.

Aggregating (Block Trading) for Multiple Client Accounts

Investment advisers may elect to purchase or sell the same securities for several clients at approximately the same time when they believe such action may prove advantageous to clients. This process is referred to as aggregating orders, batch trading or block trading. We do not engage in block trading. It should be noted that implementing trades on a block or aggregate basis may be less expensive for client accounts; however, it is our trading policy is to implement all client orders on an individual basis. Therefore, we do not aggregate or “block” client transactions. Considering the types of investments we hold in advisory client accounts, we do not believe clients are hindered in any way because we trade accounts individually. This is because we develop individualized investment strategies for clients and holdings will vary. Our strategies are primarily developed for the long-term and minor differences in price execution are not material to our overall investment strategy. Our clients are free to choose any broker and any custodian that they wish.

Item 13 – Review of Accounts

For financial planning clients, we conduct reviews of any past plans when requested by the client. Periodic reviews are recommended, but it is up to the client to initiate them. All account reviews are conducted by Megan Donnelly.

Ongoing financial planning clients will receive an annual review of their accounts and plan. This review is initiated by the client.

Client accounts with the Portfolio Review Service will be reviewed regularly on a quarterly basis by Megan Donnelly. The account is reviewed with regards to the client's investment policies and risk tolerance levels. Events that may trigger a special review would be unusual performance, addition or deletions of client-imposed restrictions, excessive draw-down, volatility in performance, or buy and sell decisions from the firm or perclient's needs.

Clients will receive trade confirmations from the broker(s) for each transaction in their accounts as well as monthly or quarterly statements and annual tax reporting statements from their custodian showing all activity in the accounts, such as receipt of dividends and interest.

Item 14 – Client Referrals and Other Compensation

Quabbin Advisors does not receive, nor does it pay, any fees for client referrals. Further, Quabbin Advisors does not accept referral fees from other professionals when clients are referred to them.

Item 15 – Custody

Quabbin Advisors does not accept custody of client funds. Clients should receive at least quarterly statements from the broker dealer, bank or other qualified custodian that holds and maintains client's investment assets. We urge you to carefully review such statements and compare such official custodial records to the account statements or reports that we may provide to you. Our statements or reports may vary from custodial statements based on accounting procedures, reporting dates, or valuation methodologies of certain securities.

For client accounts in which Quabbin Advisors directly debits their advisory fee: Quabbin Advisors will send a copy of its invoice to the custodian at the same time that it sends the client a copy.

- i. The custodian will send at least quarterly statements to the client showing all disbursements for the account, including the amount of the advisory fee.
- ii. The client will provide written authorization to Quabbin Advisors, permitting them to be paid directly for their accounts held by the custodian.

NOTE: Quabbin Advisors does not currently direct debit client accounts. All clients pay by direct invoice. Some clients have given permission for accounts to be debited in the future if they opt to do that. Our strong preference is to directly invoice clients so that their investment dollars stay invested and so they are aware of the fees they pay.

Item 16 – Investment Discretion

Quabbin Advisors does not exercise discretion on behalf of clients' securities accounts. Clients are free to either implement or ignore the advice we give regarding investment recommendations and financial plans.

Item 17 – Voting Client Securities

As a matter of firm policy and practice, Quabbin Advisors does not have any authority to and does not vote proxies on behalf of advisory clients. Therefore, Clients maintain exclusive responsibility for: (1) voting proxies, and (2) acting on corporate actions pertaining to the Client's investment assets. The Client shall instruct the Client's qualified custodian to forward to the Client copies of all proxies and shareholder communications relating to the Client's investment assets. If the client would like our opinion on a particular proxy vote, they may contact us at the number listed on the cover of this brochure.

In most cases, you will receive proxy materials directly from the account custodian.

Item 18 – Financial Information

Quabbin Advisors does not require or solicit prepayment of more than \$500 in fees per client, more than six months in advance. Nor does Quabbin Advisors have discretionary authority or custody of client funds or securities. For these reasons, additional financial disclosure is not required.

Quabbin Advisors has not been the subject of a bankruptcy proceeding. Nor does Quabbin Advisors have any financial commitment that impairs our ability to meet contractual and fiduciary commitments to our clients.

Item 19 – Requirements for State-Registered Advisers

This item requires State Registered Investment Advisers to provide certain information or disclosures about the firm’s principals and supervised persons.

A & B: Please see Part 2B for information on management background and experience.

C: Quabbin Advisors does not have a performance-based fee structure. See Item 6.

D: No management person has been involved in any arbitration, civil, self-regulating organization, or administrative proceeding.

E: Quabbin Advisors does not have any arrangements with Related Persons.

Certifications:

CERTIFIED FINANCIAL PLANNER™ (CFP®). Certification conferred January 2015

The CERTIFIED FINANCIAL PLANNER™, CFP® and federally registered CFP (with flame design) marks (collectively, the “CFP® marks”) are professional certification marks granted in the United States by Certified Financial Planner Board of Standards, Inc. (“CFP Board”).

The CFP® certification is a voluntary certification; no federal or state law or regulation requires financial planners to hold CFP® certification. It is recognized in the United States and a number of other countries for its (1) high standard of professional education; (2) stringent code of conduct and standards of practice; and (3) ethical requirements that govern professional engagements with clients. Currently, more than 62,000 individuals have obtained CFP® certification in the United States.

To attain the right to use the CFP® marks, an individual must satisfactorily fulfill the following requirements:

- Education – Complete an advanced college-level course of study addressing the financial planning subject areas that CFP Board’s studies have determined as necessary for the

and professional delivery of financial planning services, and attain a Bachelor's Degree from a regionally accredited United States college or university (or its equivalent from a foreign university). CFP Board's financial planning subject areas include insurance planning and risk management, employee benefits planning, investment planning, income tax planning, retirement planning, and estate planning;

- Examination – Pass the comprehensive CFP® Certification Examination. The examination, administered in 10 hours over a two-day period, includes case studies and client scenarios designed to test one's ability to correctly diagnose financial planning issues and apply one's knowledge of financial planning to real world circumstances;
- Experience – Complete at least three years of full-time financial planning-related experience (or the equivalent, measured as 2,000 hours per year); and
- Ethics – Agree to be bound by CFP Board's *Standards of Professional Conduct*, a set of documents outlining the ethical and practice standards for CFP® professionals.

Individuals who become certified must complete the following ongoing education and ethics requirements in order to maintain the right to continue to use the CFP® marks:

- Continuing Education – Complete 30 hours of continuing education hours every two years, including two hours on the *Code of Ethics* and other parts of the *Standards of Professional Conduct*, to maintain competence and keep up with developments in the financial planning field; and
- Ethics – Renew an agreement to be bound by the *Standards of Professional Conduct*. The *Standards* prominently require that CFP® professionals provide financial planning services at a fiduciary standard of care. This means CFP® professionals must provide financial planning services in the best interests of their clients.

CFP® professionals who fail to comply with the above standards and requirements may be subject to CFP Board's enforcement process, which could result in suspension or permanent revocation of their CFP® certification.

Chartered Financial Consultant®, (ChFC®) Designation conferred January 2011

To be awarded the ChFC® designation, individuals must complete a minimum of eight courses and 16 hours of supervised exams. Required courses cover the financial planning process, investments, retirement planning, estate planning, income taxation, and insurance planning. In addition, they must fulfill a minimum of three years of qualified business experience, must adhere to ethics requirements, and must complete 30 hours of CE credit every two years.

Retirement Income Certified Professional®, (RICP®) Designation conferred July 2013

To be awarded the RICP® designation, individuals must complete a curriculum of three college-level courses and are required to pass a series of two-hour proctored exams. Courses focus on creating sustainable income in retirement. In addition to the courses and exams, individuals must also have three years' experience, meet stringent ethics requirements, and participate in continuing education.

Life Insurance Advisor License

Megan has a life insurance advisor license in Massachusetts so that she may advise clients on life insurance and annuity products.

Item 3- Disciplinary Information

Registered investment advisers are required to disclose all material facts regarding any legal or disciplinary events that would be material to your evaluation of each supervised person providing investment advice. Megan Donnelly has not been subject to any disciplinary actions or arbitration proceedings.

Item 4- Other Business Activities

Quabbin Advisors has no other business activities.

Item 5- Additional Compensation

Quabbin Advisors does not receive performance-based fees, commissions, bonuses, or other economic benefits (sales awards or other prizes) for providing our advisory services. Our only compensation is in the form of fees paid by clients.

Item 6 - Supervision

Megan Donnelly is the sole employee of Quabbin Advisors and supervises her own work. Quabbin Advisors employs policies and procedures to ensure timely and accurate recordkeeping and appropriate processes. We seek outside assistance from qualified providers and professionals for certain services and functions as needed.

Item 7- Requirements for State-Registered Advisers

Megan Donnelly has not been found liable in any arbitration claims, or in any civil, self-regulatory organization or administrative proceedings. Megan Donnelly has not been the subject of any bankruptcy proceeding.
